

Heidelberg, January 14, 2020

Studentische Hilfskraft / Werkstudent (w/m/d)

Technical Editor

Job Description

We are a small but international company with clients and partners in Germany, the US, Eastern Europe and Singapore. We sell operating room management systems, and we support medical device companies in quality, regulatory affairs and business development.

Responsibilities:

- Create quality documents for medical devices according to ISO 13485

You will:

- learn how to set up the framework for certification of medical devices
- work in a truly international setting
- get hands-on experience with the medical device industry

Your profile:

- student with a technical background (engineering, physics, mathematics, biomedical engineering or medicine)
- fluent in English
- independent, reliable and enthusiastic
- ability to work remotely, with regular meetings in Heidelberg
- nice-to-have: background in programming, machine learning, electronics or mechanical design

Location: Heidelberg, Germany

Salary: 12 EUR/h, 37.5h/month (Minijob, max. 450 EUR/m)
(Working Student/ Wissenschaftliche Hilfskraft)

To apply, please send a short email with your CV to office@evolunis.com.
